DumBro

The meme coin of the future

The Meme Revolution with Utility

About DumbBro

DumbBro isn't just another meme coin – it's the rebel face of next-gen Web3 culture. Born from internet chaos and fueled by memes, irony, and unstoppable community energy, DumbBro is here to flip the script on traditional crypto. It's raw. It's transparent. And it's unapologetically fun. Whether you're a casual degen or a long-term believer, there's a seat for you on the DumbBro throne.

Vision

Our vision is to turn DumBro into a globally recognized symbol of Web3 culture – where memes meet meaning. We're not just building a token; we're building a movement. Powered by a passionate team and creative AI tools,

DumBro grows with its holders – block by block, meme by meme. DumBro isn't just held – it's lived. Holders co-create viral content, unlock unique experiences, and shape the project's direction together.

While others chase hype, we deliver purpose, personality, and real community power. In the future we see, DumBro memes are trending, our tools are used daily, and the token is proudly held by creators, builders, and degen dreamers across the globe.

Join the movement

This isn't just a token – it's a mission. A rallying cry for every underdog, dreamer, and bold holder with a heart. DumBro isn't built on hype. It's built on trust, creativity, and a real community.

No stealth rugs. No hidden taxes. No silent exits.

Just:

- ✓ Fairness over fraud
- ✓ Utility over gimmicks
- ✓ People over profit

Your trust is gold – and we guard it with everything. That means:

-  Liquidity locked
-  Contract ownership renounced
-  No sudden dumps

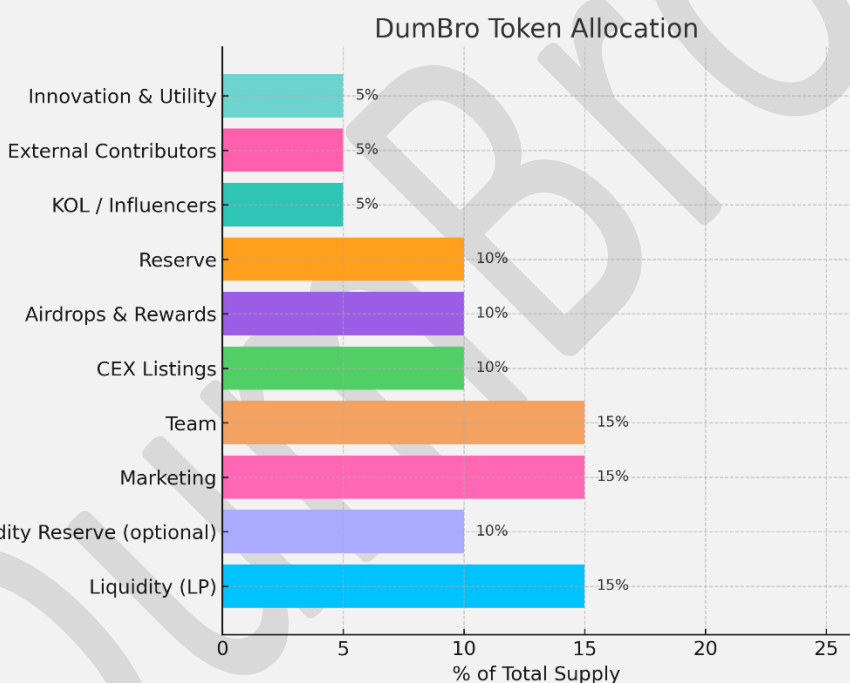

DumBro is a revolution powered by memes, driven by values, and enhanced by AI. If you're tired of scams and ready for something real – welcome home. Join the bros. Meme the future. Stack DumBro.

Total Supply	111,333,555,777	100 %

0.6% Transaction Fee on each buy/sell:

🔄 Sent first to the liquidity pool

🏆 Then split 3 ways:

- 1/3 to holders as rewards
- 1/3 to marketing
- 1/3 to development & team

Transparency & Trust Features:

🔒 Liquidity Pool Locked

🔒 Contract Ownership Renounced

🇮🇹 No hidden tokens – all allocations are public and trackable

AI-Powered Utility:

DumBro leverages AI tools to boost content creation, generate memes, and reward active holders. Our tokenomics are designed to avoid early dumps, reward loyal supporters, and fuel long-term growth.

Vesting Schedule

To protect the community and ensure long-term growth, DumbBro applies a structured vesting schedule for key allocations. This prevents early dumps, encourages commitment, and ensures market stability during the critical first phases.

Team Tokens

6-month cliff – no unlock during this period

Followed by 12-month linear unlock (1.25 % per month)

Total: 15 % of total supply

Marketing Tokens

3-month cliff

Followed by 12-month linear unlock (1.25 % per month)

Total: 15 % of total supply

KOLs / Influencers (optional vesting)

2-month cliff, then 6-month linear unlock

Used for long-term partners and promotional ambassadors

Total: 5 % of total supply

External Contributors (optional vesting)

Case-by-case lock periods depending on role and contribution

Optional 3–6 month lock for strategic or advisory roles

Total: 5 % of total supply

Reserve & CEX Listings (timelock recommended)

While not under formal vesting, these tokens can be stored in time-locked contracts for added trust

Reserve tokens are held for long-term use and expansion

CEX listings are scheduled in phases – not dumped on launch

Note:

All other categories (e.g. Liquidity Pool, Airdrops & Rewards, Innovation) are either unlocked at launch or distributed dynamically based on utility, milestones, or campaigns.

All wallets and transfers are visible on-chain.

Launch & Distribution

DumBro launches directly on PancakeSwap – no presale, no whitelist, no early insider allocations. From day one, the playing field is fair and public.

Initial Launch Setup:

-  15 % of total supply added to the liquidity pool
-  Liquidity paired with BNB and locked
-  Contract ownership renounced
-  Token is instantly tradable – no claiming required

An additional 10 % reserve is held securely to strengthen liquidity post-launch if needed. This ensures price stability and market depth during high activity periods.

With a clear launch, locked liquidity, and transparent token allocation, DumBro offers a fresh start in a space full of uncertainty. No insider deals. No dump risk. Just a meme-powered launch that rewards the brave.
