DumBro

The meme coin of the future

The Meme Revolution with Utility

About DumBro

DumBro isn't just another meme coin — it's the rebel face of next-gen Web3 culture. Born from internet chaos and fueled by memes, irony, and unstoppable community energy, DumBro flips the script on traditional crypto. It's raw. It's transparent. And it's unapologetically fun.

More than memes — built with real utility:

- Holders earn BNB rewards, claimable every 14 days via the official DumBro site.
- Special milestone rewards (8% of total supply) unlock as DumBro reaches \$1M, \$10M, \$50M, \$100M and \$500M market caps.
- Total supply: 11,333,555,777 \$DUMBRO — with 10% allocated for Airdrops & Rewards (of which 8% are milestone-based).
- Team tokens are vested with a long lock schedule to ensure long-term commitment and prevent early dumps.

Whether you're a casual degenerate or a long-term believer, there's a seat for you on the DumBro throne.

DumBro — Quick facts

Token Name: DumBro (\$DUMBRO)

Rewards System – How Bros Get Paid

DumbBro rewards are simple, transparent, and only for active holders who claim.

Fee Rewards:

- *0.2% of every transaction is converted into BNB.*
- *Rewards are claimable every 14 days on getdumbro.com – not sent automatically.*
- *Payouts are proportional to each holder's share of circulating supply.*
- *Missed claims remain available – only bros who claim get paid.*

Milestone Rewards:

- *8% of total supply is allocated to milestone rewards.*
- *Milestones unlock at \$1M, \$10M, \$50M, \$100M and \$500M market cap.*
- *At each milestone, rewards are distributed to holders who claim via the official site.*

Vesting applies – 50% released immediately, with the remaining 50% unlocked over 2 months (25% after the first month and 25% after the second month).

This system ensures fairness, prevents abuse, and rewards only the active DumBro community.

Vision

Our vision is to turn DumBro into a globally recognized symbol of Web3 culture — where memes meet meaning. We're not just building a token; we're building a movement. Powered by a passionate team and creative AI tools,

DumBro grows with its holders — block by block, meme by meme. DumBro isn't just held — it's lived. Holders co-create viral content, unlock unique experiences, and shape the project's direction together.

While others chase hype, we deliver purpose, personality, and real community power. In the future we see, DumBro memes are trending, our tools are used daily, and the token is proudly held by creators, builders, and degenerate dreamers across the globe.

Join the movement

This isn't just a token — it's a mission. A rallying cry for every underdog, dreamer, and bold holder with a heart. DumBro isn't built on hype. It's built on trust, creativity, and a real community.

No stealth rugs. No hidden taxes. No silent exits.

Just:

✓ *Fairness over fraud*

✓ *Utility over gimmicks*

✓ *People over profit*

Your trust is gold — and we guard it with everything. That means:

 *Liquidity locked*

 *Contract ownership renounced*

 *No sudden dumps*

DumBro is a revolution powered by memes, driven by values, and enhanced by AI. If you're tired of scams and ready for something real — welcome home. Join the bros. Meme the future. Stack DumBro.

Ecosystem Split:

- 0.2% → holders as BNB rewards (manual claim every 14 days via getdumbro.com)
- 0.2% → marketing
- 0.2% → development, AI tools, and team compensation

Team wallet is included in holder rewards; all other operational wallets (marketing, reserve, CEX, KOL, external contributors) are excluded.

Transparency & Trust Features:

 Liquidity Pool Locked

 Contract Ownership Renounced 48h after launch

 No hidden tokens – all allocations are public and trackable

AI-Powered Utility:

Dumbro leverages AI tools to boost content creation, generate memes, and reward active holders. Our tokenomics are designed to avoid early dumps, reward loyal supporters, and fuel long-term growth.

Vesting Schedule

To protect the community and ensure long-term growth, DumBro applies a structured vesting schedule for key allocations. This prevents early dumps, encourages commitment, and ensures market stability during the critical first phases.

Team Tokens

12-month cliff — no unlock during this period

Followed by 15-month linear unlock (0,67% per month)

Total: 10% of total supply

This ensures long-term commitment and prevents early dumps by the team.

Marketing Tokens

3-month cliff

Followed by 12-month linear unlock (1.25% per month)

Total: 15% of total supply

KOL / Influencers (optional vesting)

2-month cliff, then 6-month linear unlock

Used for long-term partners and promotional ambassadors

Total: 5% of total supply

External Contributors (optional vesting)

Case-by-case lock periods depending on role and contribution

Optional 3–6 month lock for strategic or advisory roles

Total: 5% of total supply

Reserve & CEX Listings (timelock recommended)

While not under formal vesting, these tokens can be stored in time-locked contracts for added trust

Reserve tokens are held for long-term use and expansion

CEX listings are scheduled in phases — not dumped on launch

Note:

All other categories (e.g. Liquidity Pool, Airdrops & Rewards, Innovation) are either unlocked at launch or distributed dynamically based on utility, milestones, or campaigns.

All wallets and transfers are visible on-chain.

Launch & Distribution

DumBro launches directly on PancakeSwap — no presale, no whitelist, no early insider allocations. From day one, the playing field is fair and public.

Initial Launch Setup:

- 15% of total supply added to the liquidity pool
- Liquidity paired with BNB and fully locked (TX links published)
- Contract ownership renounced 48h after launch
- Token is instantly tradable — no claiming required

An additional 10% liquidity reserve is held securely to strengthen the LP post-launch if needed. This reserve is dedicated exclusively to reinforcing the LP together with matching USD/BNB. These tokens are not intended for sale, but will be permanently locked into the LP when deployed. LP Reserve Policy:

- LP top-ups are always added with tokens + matching BNB — never by dumping tokens.
- LP tokens from all top-ups are permanently locked, with TX links published for transparency.
- Governance is secured by a multi-sig wallet controlling reserve deployment.

This ensures that liquidity depth increases over time without harming holders, and all actions remain fully transparent on-chain.

Why DumBro ?

💎 0.6% Transaction Fee powers the ecosystem

- 0.2% → BNB rewards for holders — claimable every 14 days via getdumbro.com

Utility & Ecosystem

DumBro isn't just another meme coin — it's a growing utility-powered ecosystem, built for holders who want more than empty promises.

Holder Rewards

BNB Rewards – Tech Notes (Manual Claim)

Rewards are claimable every 14 days via the official getdumbro.com claim page; they are not sent automatically. Payout shares are proportional to your % of circulating supply at the time of each distribution window.

Rewards are funded by the 0.2% portion of the 0.6% transaction fee and are converted to BNB for claiming. To receive your rewards, connect your wallet on the DumBro site and click Claim. If you skip a window, your accrued rewards remain available to claim later (they are not automatically distributed).

📦 How to buy DumBro

Getting DumBro is easy – just follow these steps:

1. Set up a wallet

Quick BSC Setup (MetaMask)

Network Name: BNB Smart Chain

RPC URL: <https://bsc-dataseed.binance.org/>

Chain ID: 56

Currency Symbol: BNB

Block Explorer: <https://bscscan.com>

2. Buy BNB

Buy BNB on a CEX (or bridge) and send it to your wallet on BNB Smart Chain.

3. Go to PancakeSwap

Open getdumbro.com/buy – this button takes you to PancakeSwap. When the official contract address (CA) is announced, the page will auto-preload it in the swap form.

4. Swap BNB for DumBro

Set slippage if needed, confirm the swap, and approve in your wallet.

Paste the DumBro contract address: TBA

(The official CA will be published on getdumbro.com/official at launch.)

Security & Transparency

Contract verification & source: The DumBro smart contract will be publicly verified on BscScan with source code available for review.

Ownership Renounce Timeline: Contract ownership will be renounced 48h after launch, following initial monitoring and finalizing non-trading settings. No trading-impacting changes will be made before renounce.

Liquidity protection: LP tokens will be locked at launch; the lock duration and TX link will be published for full transparency. LP top-ups are always locked, with TX links published.

Fee transparency: fee 0.6% is equally split: 0.2% holders (BNB, manual claim), 0.2% marketing, 0.2% development/AI/team.

Holder rewards (manual claim): Holder rewards in BNB are claimable every 14 days via the official getdumbro.com claim page (not auto-distributed). Rewards are proportional to circulating-supply share; missed windows remain claimable later. Rewards are snapshot-based and only active holders who claim get paid. No mint function. No hidden dilution.

Official information & CA: The official contract address (CA) and critical announcements will be published only on getdumbro.com/official and verified social channels. Beware of impostors and phishing.

Open-source transparency: Code and roadmap updates are public. Labeled treasury wallets (team, marketing, reserve, etc.) and vesting schedules are disclosed in Tokenomics.
